Subject: RE: Weekly Status Call

Ex. 7(f)

Thanks for the email.

I sent Kevin C. an email earlier & need to hear back from him.....when Reggie Allen's office submitted the PR for the booth to OAM (Contracts), they indicated a date of 8/24 as the date the booth was needed....

As I mentioned to Kevin C. a couple of weeks ago, this booth will not appear that fast.....given the requirements, it's a custom design & that takes a minimum of six to eight weeks, and we are still working with OAM to identify a vendor who can meet our requirements, including delivery and installation. We all understand this is a priority; however, this is not something that can happen quickly.

OAM needs the OK from either you, Nino or Kevin that you understand the timeframe, and understand that 8/24/17 is not going to be possible.

Please confirm asap- reply to all, please.

Thank you-

Bill,
Cc All,

No worries. I copied Reggie on this since his email may require some additional follow-up from me.

So we are all aware, the security upgrade for the 3rd floor is a request from the highest levels of this Administration tasked down to me and Kevin. Specifically there are two action items, the SKIFF which is in Kevin's hands and access to the immediate area surrounding the Administrator's office which I was tasked. Thanks to Gayle and Bill we are moving along nicely on both fronts but honestly outside of coordination I need help with funding it.

So maybe next week once Reggie, Kevin and I meet we can figure out who and when next steps will be taken on the access swipe action item.

Thank you all for your patience on this matter.

On Sep 7, 2017, at 2:57 PM, Bellerose, William <Bellerose.William@epa.gov> wrote:

Hello Nino,

Here are the two quotes that were broken out for the Administrator's Office security upgrades. One quote is for the move of the CCTV equipment that is in the room where the future booth will be installed.

The other quote is for the two card readers. The purpose and intent of the card readers will assist the contract guards in screening those that have access to the Administrator's Suite. As you know there is a list of over 50 people that is updated regularly that the guards have to check against. Allowing the access control system to assist with letting the guards know who is approved for access will speed up entry for those that need to access the suite. The system can also be able to stop personnel who may need to be removed from the list quickly. We can remove an employee's access via the system within seconds as opposed to sending or redirecting a list to them through their chain of command.

Please let me know if you approve so I can submit the PR to have this work performed.

Thank you,

Ex. 7(f)

The structural review was not delaying the project, as we indicated during last week's meeting. We were just having GSA do a double check with the engineer while we are awaiting the contract award.

The procurement of this booth is going through the contracts process, and we have made it very clear to all that this project would not happen in just a few weeks – it's at least a six to eight week project once the contract is awarded. That has been the position since we began discussions of the requested customized booth.

FMSD has taken the lead & has worked very cooperatively with all parties, including OEI, OAM, the Administrator's Office (Reggie Allen's Folks), by having weekly meetings to keep everyone informed of the progress for the project, so there would be no surprises to anyone., and so that you, Nino and Kevin C. could keep the Administrator informed of the progress.

I am copying Reggie Allen's office, OLEM, SMD, and OAM on this email, as well.

I'm a little troubled that your message seems to imply expectations that counter our collective efforts.

Gayle, did they get that GSA survey done that was mentioned on the phone call?

It's a shame that this project couldn't have been accomplished while the Administrator was gone for over a month. I understand the constraints – I'm just saying it's unfortunate that we couldn't have gotten this finished while he was out of town for such an extended period of time.

Jenni, thanks for the quick response.

Yes, let's nix Apollo and the Seasons.

Will the delivery charge and installation be about the same as the amount that you previously sent? (And, could you send the estimate attachment once more? Somehow I have lost it.)

Subject: RE: Estimate for EPA delivery

Hi Michelle,

Oh, I see. They stopped working on those pieces when the request was in flux. We might be able to get *Mountain Landscape* to you late next week, if the Administrator would like that one. And maybe *Barge Dock*, if I can get a quick curatorial approval on that piece. *Apollo and the Seasons* needs a more significant amount of work, so I would not recommend that one unless he is willing to wait for it. We also have a nice piece that recently came back from loan (I'm not sure if it was on earlier lists I sent):

<http://americanart.si.edu/collections/search/artwork/?id=20816>

It is in good shape and would be ready soon. As for sunsets on the Plains, we don't have a lot in our collection fitting that description. I'm waiting to hear from curatorial and conservation to see if one particular piece is okay to lend. I thought I'd check in advance to avoid any more disappointments.

Please let me know if you would like to proceed with *Mountain Landscape* and *Barge Dock* in the meantime.

Best,

Hi, Jenni, I actually was referencing the two that he originally had picked *Apollo and the Seasons* and *Mountain Landscape*. I was under the impression these two had already been pulled and were in the conservation process. We are under a lot of pressure to get his office finished and because time is of the essence – I thought we could go ahead and proceed with these two since they were already being restored. However, after thinking about it, we probably best not proceed with *Apollo and the Seasons*. I hate to spend the money to get it refurbished, shipped, and installed if he were to end up not liking it.

Could you check on what the status is for *Mountain Landscape*?

And, have you had any luck with finding pieces depicting sunsets on the Plains?

Hello Michelle,

Are you referring to these two works?

Mountain Landscape by William Louis Sonntag

ACC NO: 1975.74

Barge Dock by Erle Loran

ACC NO: 1964.1.70

The Loran has not been officially approved yet and both need a little conservation before they can be shipped. I'm afraid they will not be ready by Friday. I spoke with our conservators and the earliest we could have these two works for you would be in about two weeks, depending on the shipping company's schedule and the Administrator's schedule.

Best,

Hi Michelle,

So I sent along your list and our curator called immediately to say she is putting the following two works up in our galleries soon:

August Cicadas by Keith Jacobshagen

ACC NO: 2013.72.5

Flooded Canyon: Clear Dawn at Yellowstone by Stephen Hannock

ACC NO: 1998.138

Unfortunately they will not be available for the Administrator to borrow. Would he like to pick something to replace those two?

I'm sorry this keeps happening, but it is clear the Administrator has good taste in art!
